#### **SCORING GUIDE**

In awarding points to the evaluation criteria, the evaluator/evaluation committee will consider the following guidelines:

**Superior Response (95-100%):** A superior response is an exceptional reply that completely and comprehensively meets all of the requirements of the RFP. In addition, the response may cover areas not originally addressed within the RFP and/or include additional information and recommendations that would prove both valuable and beneficial to the agency.

**Good Response (75-94%):** A good response clearly meets all the requirements of the RFP and demonstrates in an unambiguous and concise manner a thorough knowledge and understanding of the project, with no deficiencies noted.

**Fair Response (60-74%):** A fair response minimally meets most requirements set forth in the RFP. The offeror demonstrates some ability to comply with guidelines and requirements of the project, but knowledge of the subject matter is limited.

**Failed Response (59% or less):** A failed response does not meet the requirements set forth in the RFP. The offeror has not demonstrated sufficient knowledge of the subject matter.

Scoring Guide 32

#### **Cost Worksheet**

Lowest overall cost receives the maximum allotted points. All other proposals receive a percentage of the points available based on their cost relationship to the lowest. Example: Total possible points for cost are 300. Offeror A's cost is \$20,000. Offeror B's cost is \$30,000. Offeror A would receive 300 points. Offeror B would receive 200 points (\$20,000/\$30,000) = 67% x 300 points = 200).
